CHALLENGES WITH DIGITAL DENTISTRY

OVERCOME

WORKFLOW

1. Need to give the patient clarity on what he wants, what he needs, and what should be done?

Solution:- The best way is to design his future smile digitally and help him see the end result as actual.

2. Involve the dentist's familiarity with technology or investment in technology?
Solution:- Photo Protocol & Scanning Impression.

3. Ease of Working

Solution:- Integrate an all-encompassing digital workflow into your practice.

ALL THAT ENDS WELL MUST BE PLANNED WELL AHEAD IN

TIME

Facially Drive 3D treatment planning with reverse engineering using artificial Intelligence is the game changer in the field of dentistry today.

LET'S COPY NATURE...LITERALLY...
